1" or 1.5" tabs

15,000 tab roll capacity per side

weight is 80 lbs.

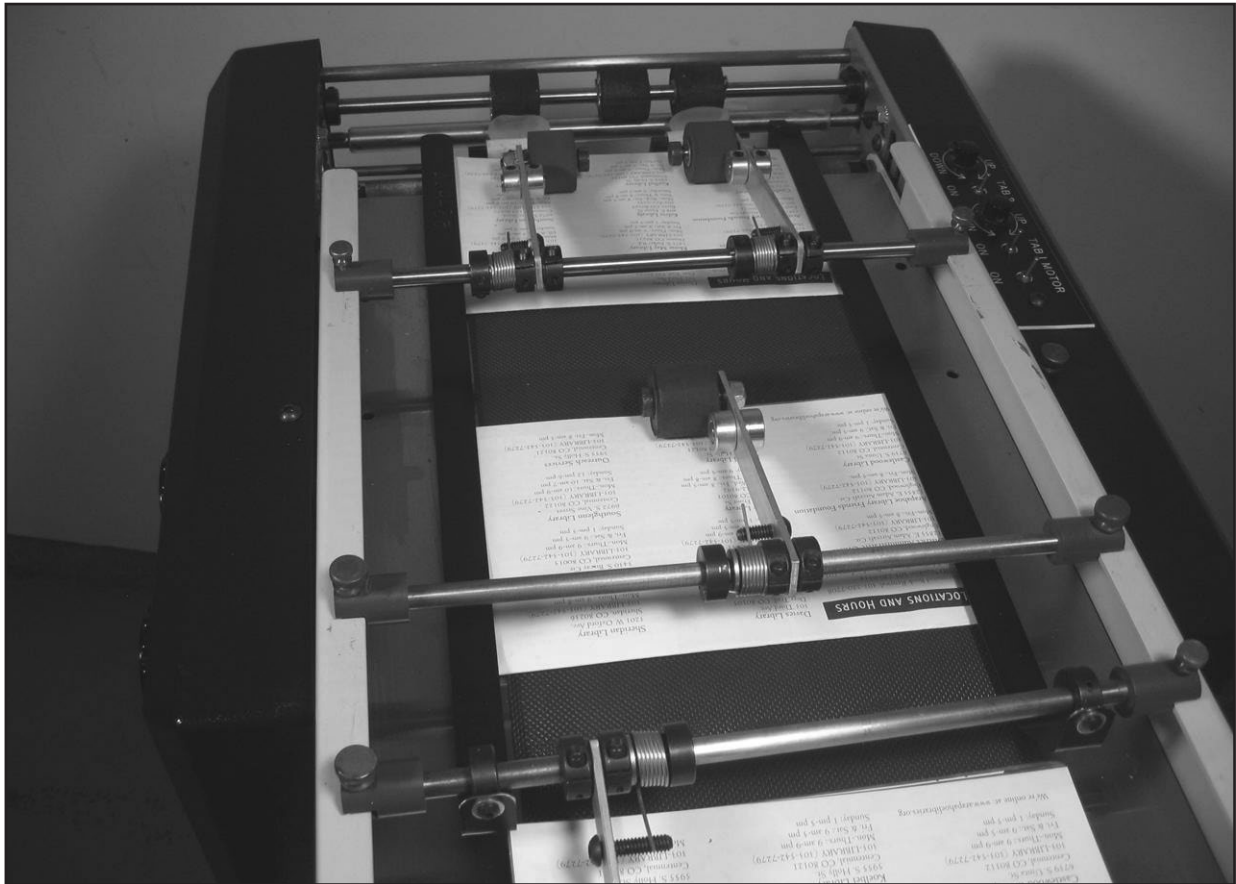

affordability: yes

reasonable initial cost with very high production capabilities, accelerated return on investment

plug and play

made in USA

Finally... A High-Speed Bump Turn & Tabber Combined!

Now you can bump turn off your Pro Fold or Kirk Rudy tabber. Bump turn and tab, head and foot, and go right into your inkjet without selling the farm.

The Jet Tabber can apply one or two tabs, any size, and turn it 90° or 180°—and do it all at high speed. Just slide it in between your tabber and inkjet and you're ready to go. There are no adjustments for the thickness of the piece. Set-up time is fast, and the tabs are great!
